DIGISAFE FINGER GUARDIAN

DESCRIPTION

A door hinge safety system designed to prevent fingers being trapped in doors. Ideal in schools, nurseries, nursing homes/hospitals, offices and any area where the possibility of injury to fingers may occur. Will also assist in providing privacy by covering gaps at hinge door edge.

Doors are an everyday object but potentially dangerous and according to RoSPA there are over 30,000 finger injuries every year.

Teachers, parents, and carers have become increasingly aware of the danger of children trapping their fingers in closing doors and to avoid accidents recent legislation BS7036 Part 4: item 7.1 recommends the use of a finger protector that either fills the finger trap or minimises the gap so as not to create a finger trap.

Supplied in 1950mm lengths in two sizes to fit 105° and 180° door openings, suitable for butt hinged or centre pivot doors.

BENEFITS

Fits most door types

Easy to fit

Low maintenance

Choice of 5 standard colours & 4 woodgrain* finishes
White, Brown, Black, Blue, Grey – Oak, Ash, Beech, Maple

Digisafe Finger Guardian is manufactured from PVC Nitrile and once installed requires no maintenance other than a wipe down with a damp cloth for cleaning.

With an aesthetically pleasing slim-line design this finger guard is easy to install, requiring no specialist tools or equipment. Self-adhesive backing strips are used to position the guard holding strips, which are then reinforced by screws (supplied), neatly concealed by a cover strip.

Digisafe finger guards are also available in a SteriTouch* material where a high standard of hygiene is essential, SteriTouch* is designed to inhibit the growth of bacteria, mould and fungi and is effective against MRSA, E.Coli and Salmonella and other bacteria.

* WOODGRAIN & STERITOUCH to special order only - minimum order quantities may apply
