## FINGER KEEPER INDUSTRIAL (RP62)

### DESCRIPTION

Finger Keeper Industrial (RP62) is a heavy duty anti-finger-trapping hinge guard manufactured from Black EPDM fitted in an anodized aluminium carrier, which has black inserts to conceal the fixing screws.

The EPDM safety strip prevents fingers being pinched on the hinge side of a door. It is fixed to the door and the jamb on the hinged side.

### BENEFITS

Suited to demanding commercial and industrial environments.

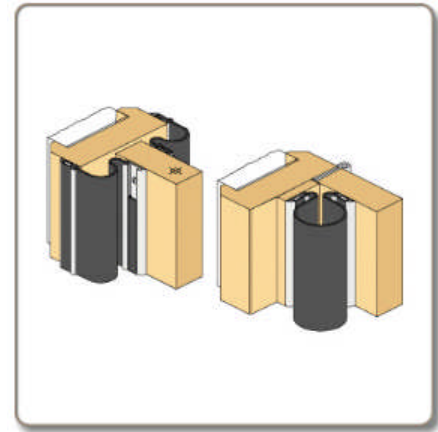

Anodized Aluminium and EPDM Rubber

Can be retro fitted.

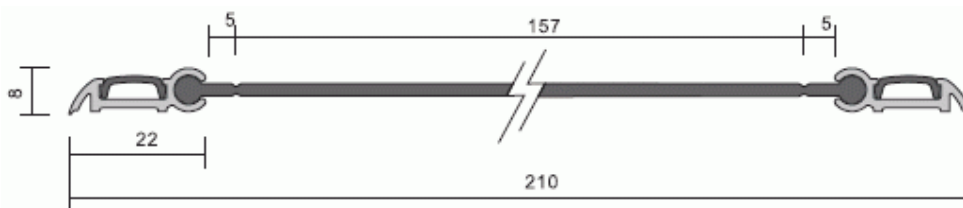

Fits butt hinged or centre pivot doors.

Conforms to UK H&S Regs.1992 (SI 3004)

Available for standard or wide opening gaps.

The dimensions of the standard finger guard are shown below in mm

A wider safety strip is available to special order for covering larger gap openings, such as powered gates etc. The safety strip is 216mm wide compared to the standard width of 157mm (see above).

### Availability

Supplied in 2100mm, for longer lengths butt joint strips together (or to special order) if required.

### Standard Finishes

Carrier: Satin Clear Anodised Aluminium (15 microns)

Strip: Black EPDM rubber.

### Fixing Method

Zinc plated, cross recess head S.T. screws of the appropriate size are supplied.

Fixing holes are slotted. Push-in cover strip.
